

PATHOLOGY PRESENTS

“Challenges and Opportunities in Pathology and Laboratory Medicine: Reflections on 10 Years in National Leadership of the ASCP”

Melissa Upton, MD

Professor Emeritus of Pathology, University of
Washington
Associate Director, UW Pathology Residency
Training Program

Wednesday, February 5th,
2020
4:30pm-5:30pm
HSB T-739

Dr. Melissa Upton, Emeritus Professor of Pathology at University of Washington, is the Immediate Past-President of the American Society for Clinical Pathology (ASCP), a 100,000 member organization of both pathologists and non-MD laboratory professionals. She will discuss a number of challenges that face our profession at the national and international level, including strategic, workforce, regulatory, and global challenges. This presentation is geared to pathologists and laboratory professionals, to provide perspective to enhance individuals in their career planning and to foster awareness of the necessity to work collectively to address the threats and opportunities that we face.

To request disability accommodations, contact the Office of the ADA Coordinator at least ten days in advance of the event:
543-6450 (voice); 543-6452 (TDD); 685-3885 (fax); access@u.washington.edu (e-mail).
