

# Workshop for Researchers & Research Teams: *Addressing Implicit Bias in Health Care & Research*

## DATES/TIMES:

July 23rd (Part 1) 10-12 pm &  
July 25th (Part 2) 1-3 pm (Pacific Time)

Designed to help research teams reduce and counteract bias in their research, this workshop will help you to:

- Part 1: Equity and Implicit Bias
  - Define and contrast equity-related concepts including implicit and explicit bias, racism and antiracism, microaggressions, privilege, and levels of oppression
  - Describe how implicit bias shows up in everyday life
- Part 2: Implicit Bias in Healthcare and Research
  - Understand how bias & discrimination impact patients/families (and everyone) in health care and research
  - Identify at least 5 methods to interrupt bias in health care and research
  - Identify at least 5 best practices of conducting equitable research
